FINAL
POLICY REGARDING USE OF SOCIAL MEDIA SITES OR ANY INTERNET-
BASED APPLICATION

Snead State Community College recognizes the use of social media websites and other internet-based application as a useful tool to share information, to market the College, and to provide a space for communication between college officials, students and alumni. Because of the value of these recourses, the College has established the following policy for use of the College’s official social media profiles or pages by College employees, students, and alumni. Snead State reserves the right to remove any posts, photos or videos that do not comply.

Be respectful. We respect the dignity of others and the thoughtful discussion of opposing ideas. Content deemed acceptable for post on the College’s social media sites may be positive or negative in context, regardless if it is favorable or unfavorable to SSCC. However, language that is illegal, obscene, defamatory, threatening, infringing of intellectual property rights, invasion of privacy, profane, libelous, threatening, harassing, abusive, hateful or embarrassing to any person or entity, or otherwise injurious or objectionable is unacceptable and shall be removed.

Be accurate. Please know your facts before you post. Any errors in a post should be corrected quickly.

Keep a focus on SSCC. The site may not be used to promote businesses, causes, political candidates or a personal agenda. The social media sites are to be used for information sharing, marketing, and communication among employees, students and alumni.

The Office of Public Relations/Marketing shall oversee all College presence on social networking sites. New College-related social media sites or pages should be established through the Office of Public Relations and Marketing with the official College profile being named an administrator for the new sites. Existing sites and pages will be reviewed routinely and may be amended or, when necessary, removed.

All policies, procedures and guidelines regarding Snead State trademarks, name, and symbols apply to social networking sites. Snead State does not permit explicit or implied institutional endorsements of any kind through the use of its names, trademarks, logos or images, including pictures of campus buildings.

Respect college time and property. College computers and employee work time are to be used for college-related business. It’s appropriate to post at work if your comments are directly related to accomplishing work goals, such as seeking sources for information or working with others to resolve a problem.

Maintain confidentiality. Do not post confidential or proprietary information about Snead State, its students, its alumni or fellow employees. Use good ethical judgment and follow College policies and government requirements, such as FERPA.
Protect your privacy. Comments posted to SSCC’s social media sites are visible to all. Therefore, users should refrain from posting personal information, such as phone numbers, e-mail addresses, etc. If there is a need to follow-up with an individual, such information should be exchanged through a private message through the social media sites to a page administrator.

SSCC is not responsible for the content of any website outside of the snead.edu domain. The inclusion of any non-college link does not imply endorsement by SSCC of that website.

Posts by page administrators will appear next to the official page icon. Any other comments on the site do not necessarily reflect the opinions and position of SSCC. Individuals are legally responsible for the comments they post.

Your commitment. By posting any comments, links or other material on SSCC websites, you give SSCC the right to reproduce, distribute, publish, display, edit, modify, and otherwise use your submission for any purpose in any form and on any media. You also agree that you will not:

- Post material that infringes on the rights of any third party.
- Post material that is unlawful, obscene, defamatory, threatening, harassing, abusive, slanderous, hateful, or embarrassing to any other person or entity as determined by SSCC in its sole discretion.
- Post ads or solicitations of business.

Grade Appeal Process Revision 12/7/11

Students may contest a grade for up to 30 days from the last day of the term in which the course was taken. For the purposes of this policy, the “last day of the semester” is the last day on which final exams are scheduled for the Fall, Spring, or Summer term in which the course was taken. Mini-term classes are treated as full-term classes for the purpose of this policy.

Students who believe their grade is incorrect may ask the instructor to recalculate their grade. If the given grade is found to be in error, the instructor will submit a change-of-grade form. Situations where the grade was calculated wrong are not technically appeals.

If a student believes a grade to be unfair, the student should first contact the instructor and share that concern. If the student is not satisfied with the instructor’s response, the student may bring the matter to the Division Director for that division. If the student is not satisfied after discussing the matter with the Division Director, the student may file a formal grade appeal, but the appeal must be filed prior to the midpoint of the next semester, including summer. The appeal will be heard by the Grade Appeal Committee during the semester when the appeal is filed.

The only grounds for appeal are:

- The student’s grade is based on factors other than performance in the course and/or adherence to course requirements.
- The instructor placed more demanding standards on one student than others in the same section of the course.
A Grade Appeal Committee will be appointed to hear grade appeals on an as-needed basis.

The committee:
- Three full-time faculty members – One from the General Studies (transfer) program, one from a Career/Technical Program, and a third instructor preferably from the academic discipline involved in the appeal (if possible).
- One representative from Student Services
- One student representative chosen from the Student Government Association

The formal grade appeals process is as follows:
- The student submits the grade appeal form and includes a written description of the grounds for the appeal, which must be based on the criteria above.
- The instructor may submit a written response to the student’s claims.
- The burden of proof lies with the student.
- A majority vote of the committee will determine whether the assigned grade should stand or should be changed.
- In the event that the committee decision is that the grade should be changed, the instructor will be notified of the decision and the committee will work with the instructor to determine the student’s new grade.
- The committee’s findings will be filed in the office of the Chief Academic Officer.
- The decision of the committee shall be final.
