You can increase intensity by increasing speed, incline, or resistance.

Pool Workouts

You may choose to replace a cardio workout with a pool workout.

Pick a day that you would rather do a pool workout, pick one of the two workouts, and do it instead of agilities, plyos, sprinting, interval training, jump ropes, or a jump circuit.

Have Fun!

Workout #1

Equipment: kickboard or some sort of floating device

Agilities in Shallow Water:

- High Knees x 2
- Butt Kicks x 2
- 4 & 4 x 2 (4 high knees, 4 butt kicks)
- Karaoke x 2

- High Skips x 2
- Baby Skips x 2
- Sprint x 2

Flutter Kick in Deep Water:

2 sets of 10

You have 1:00 minute to flutter kick the width of pool (about 20 yards). This should be a sprint.

If you complete the kick before your minute is up, you can rest for the remaining time. When the minute expires, you flutter kick back to your starting position. After 2 reps (there and back), do 10 racks. (Racks- grip side of pool, go under, and then extend arms until elbows lock) Racks should always be done in the deep end. Make sure you go under water and do not hit your mouth or head on the side of the pool. After the first set, you should have completed 50 racks. If you do not complete the sprint in 1:00 minute you do start the next flutter kick sprint immediately.

Volleyball Workout

Part I- Shoulder Specific

Whether you are an offensive or defensive player, or both...this will prepare you for multiple repetitions of attacking and serving. This will prepare you and decrease the chance of injury. This can all be done against the wall, but any opportunity that you have to actual attack and serve on the court would be beneficial.

Week 1: Attacking motion against wall 4 x 10 /Serving motion against wall 4 X 8

Week 2 & 3: Attacking 5 X25/Serving 4 x 10

Week 4: Attacking 6 x 25/Serving 5 x 10

Week 5: Attacking 10 x 20 /Serving 6 x 10

Week 6: Attacking 8 x 30 /Serving 8 x 8

Week 7 & 8: Attacking 10 x 25 /Serving 10 x 8

Part II- Passing/Defense Leg Conditioning

Baby footwork: forward, back, right, left, and repeat. Remain low and in a good passing position, arms out ready to pass. One step with both legs in each directions, get balanced, pass, and return to base.

Week 1 & 2: 4 x :30 seconds

Week 3: 4 x :45 seconds

Week 4: 4 x 1:00 minute

Week 5: 5 x :45 seconds

Week 6: 5 x 1:00 minute

Week 7 & 8: 6 x :45 seconds

Inverted V's: Start in ready position, relaxed, and balanced. Start by pursuing a ball over the right shoulder. Open by dropping right foot and stepping back, crossover with left, then drop right back and shift weight forward on left to pass ball. Return to base, then repeat pursuing ball over left shoulder, open by dropping left foot back, crossover with right, step back with left and shift weight forward on right to pass ball. Return to base... that's one.

Week 1 & 2: 4 x 5

Week 3: 4 x 6

Week 4: 4 x 8

Week 5: 4 x 10

Week 6: 5 x 8

Week 7 & 8: 5 x 10

Part III- Blocking Footwork

1 Step: Push off L foot and raise R foot, land on both balanced (to right). Push off R foot and raise L foot, land on both balanced (to left).

2 Step: Crossover and close. Both directions

3 Step: Step with foot in same direction as moving, crossover and close. If you are a middle, do 3 steps. If not, do more 1 and 2 steps. Max sure you are MAX jumping, PRESSING, & PIKING! Move at GAME SPEED!

Week 1: 6 x each

Week 2: 8 x each

Week 3 & 4: 10 1-step, 8 2-step, 6 3-step

Week 5 & 6: 10 1-step, 10 2-step, 6 3-step

Week 7 & 8: 10 1-step, 10 2-step, 10 3-step

Part IV- PLAY

Play as much as possible! Pepper as much as possible! Touch the ball and work on ball control as much as possible!

When you pepper, go hard for a time and then rest! Make sure you are practicing good technique! Pepper at 100% for 2 minutes and then rest! Repeat... if you only pepper at 50% then you are practicing bad habits!
